BACHELOR OF DENTAL TECHNOLOGY

PROGRAMME DESCRIPTION

This course provides students with a well-rounded education in all aspects of dental technology whilst also challenging their ability to problem-solve. A Dental Technology degree provides the best foundation for the aspiring dental technician who may progress to work in a laboratory or be self-employed. Dental Technology offers the scope to work and travel abroad. Along with providing candidates with the necessary information and abilities, the programme also trains participants in how to use advanced dental lab equipment and carry out precise tests.

PROGRAMME AIM

After successfully completing the Bachelor of Dental Technology program, the aspirants will be able to:

- Demonstrate the breadth of knowledge in the principals of restorative dental prosthesis and dental sciences.
- Demonstrate proficiency in the technical competency skills necessary to perform at or beyond an entry-level position in a dental laboratory.
- Comprehend and apply dental terminology, and technical advancements in the dental laboratory technology profession.
- Demonstrate ethical work habits and behavior patterns that are required for the success and advancement in the dental profession.
- Demonstrate the need for continued learning and professional development locally, nationally and internationally in the field of dental laboratory technology.
- Demonstrate the written, oral and multimedia skills necessary to communicate effectively in multicultural/diverse settings.
- Demonstrate skills in critical thinking, interpretation, reasoning, questioning, and decision making in the dental profession.
- Demonstrate proficiency in interpreting and evaluating current dental prosthetic research and apply that knowledge to demonstrate dental laboratory skills necessary for life-long learning.

Promote the dental laboratory technology profession through service-learning activities, affiliations with professional organizations, and partnerships with dental companies and the community.

PROGRAMME AIM

Over time, the range of employment available to dental technicians has increased. A wide range of occupations in a wide range of settings are now available through Bachelor of Dental Technology programs. Some of them are as follows:

- Dental Assistant.
- Dental technician.
- Dental hygienist.
